KNOW ABOUT **CALCE COMPANY**

ORIGINS

Timeless longevity.

Calce Company was founded by an Australian-Italian family who is passionate about bringing the latest Italian plaster finishes into Australian homes and commercial buildings.

OUR MISSION

Crafted from Italy directly.

We help to make difficult decisions easy.

With an extensive range of traditional Italian finishes, there are endless possibilities to fit you, your family or your business.

CREATION

State of the art.

We strive to influence the industry and introduce new ideas and methods. Recent technological advances in the composition of lime plaster have made these products easier to use, without compromising the quality of the finish.

VENETIAN PLASTER

MURANO

INT

Murano is a fusion of intense metallic edges and subtle shimmer reflections. This iridescent lime-based Venetian Plaster is available in silver, gold and bronze and is perfectly designed for interior applications.

GRASSELLO LUCIDO

INT

With a sleek mirror finish and colours ranging from classic neutrals to bold brights that suit any decor scheme, Grassetto Lucido's design is elegant and versatile. Its ultra-fine, micro-filtered lime putty, makes it excellent for interior applications.

SALE E PEPE

INT

With an indulgent marble feel and smooth Venetian Stucco finish, the dotted effect of Sale e Pepe makes it an exquisite modern addition to any interior area.

ELITE VENEZIA

INT

A uniquely transpiring acrylic stucco, that allows you to indulge in the fusion of elegance and familiarity. Reminiscent of a Marble effect and a sophisticated mirror finish, make it perfect for interior applications.

LIDLAW PARADE

MICROCEMENT

MARMORINO FLOOR

INT | SH-EXT | WET

A Microcement finish that is cool and enticing, its lustrous modern look combines the depth of marble textural effects for a stand-out addition to any interior and wet areas.

MICROSYNTH MARBLE

INT | EXT | WET

With a durable, wear-resistant finish, its beauty is second only to its practicality. Made up of synthetic paste product, one component with selected Carrara marble powders and grits, making it 100% waterproof.

MICROCEMENT

INT | EXT | WET

Reminiscent of a Soft Stone effect, Microcement's alluring texture and smooth soft blooming finish creates a timeless, yet inviting personality to any artistic space.

TROWEL-X

INT | EXT | WET

Trowel-X is a unique Microcement finish that combines the modern minimalist style of a polished concrete effect that will form an artful experience in your space.

MICRO-QUARTZ

INT | EXT | WET

Micro-Quartz's beauty is made from a two-component, hybrid cement that is effortlessly flexible and 100% waterproof. This timeless product can be available in coarse, medium, and smooth.

MYLKY SPACE

Allow nostalgia and modern style to intertwine with the unique stone effect of Elite Travertino.

Comprised of crushed stone from a Travertine Quarry in Rome, this timeless product is available in fine and medium grain.

INT | EXT

MARMORINO

ELITE MARMORINO

INT | EXT

With flexibility between natural and polished stone effects, soft colours and marble ripples, Elite Marmorino is one of our most versatile products.

MARMORINO ANTICO 300

INT | EXT

This lustrous modern look of Marmorino Antico 300 combines the depth of marble textural effects, with a silky sheen for a stand-out addition to any area.

MARMORINO CLASSICO 500

INT | EXT

Designed to suit both commercial and residential spaces, Marmorino Classico 500 is a timeless modern take on a traditional Venetian design, that introduces sophistication to any design.

MARMORINO MATT 600

INT | EXT

The timeless Marmorino Matt 600 embraces traditional comfort and modern style simultaneously with its refined matt finish. Making it a seamless addition to both commercial and residential spaces.

MARMORINO MATT MADRAPERLA

INT | EXT

With a unique blended formula of marble powders and crushed Australian Mother of Pearl shells, this matt finish holds a natural iridescence ideal for adding a distinguished quality to your space.

MOMA

INT

Pure and versatile, MOMA is inspired by a combination of modern minimalist style and traditional materials, for a unique concrete effect that enhances any artistic space.

GLIMMERPUTZ

INT

A textural experience to inspire, with metallic flecks interwoven through its smooth, matt finish. Glimmerputz fits in and stands out, making it ideal for commercial and residential spaces.

METALLIC & PEARL EFFECTS

CHIFFON

INT

Reminiscent of a frozen lake, Chiffon's depth of shimmery texture stems from beneath its smooth satin finish. Its refined formula and broad colour selection make it a versatile choice for any project.

CHIC FINE

INT

A refined metallic glaze, CHIC Fine infuses subtle sophistication in your daily routine. With a smooth linear finish and an iridescent sheen, this design is both humble and bold, flattering a variety of spaces.

CHIC CLASSIC

INT

A decorative metallic glaze with a fine sandblasted finish, CHIC Classic is designed to draw the eye through shifting light refractions, elegantly complimenting its surroundings.

CHIC HERITAGE

INT | EXT

Extend the sensory experience of metallics beyond interior limitations, with CHIC Heritage. Its dynamic light refractions from within a sand-blasted finish are designed to perform aesthetically while maintaining a resilient formula.

COOL FUSION

INT | SH-EXT

Composed of 75% of real metal, Cool Fusion is a cool and enticing finish that combines the depths of metal-like textural effects to exceptionally elevate your artistic space. Available in bronze, copper, brass and zinc.

LAMINA

INT

Lamina is designed to add a metal effect to textured lime-based products, with a choice between five striking metallic colours to suit any space: gold, silver, bronze, brass antique and holographic.

CHIC METAL

INT

Indulge your senses with the sultry chromatic tones of CHIC Metal. With a pre-tinted bronze, copper and purple metallic base, this aesthetically texturised design injects warmth into the ambience of any area.

CALCE COMPANY COLOUR ACCURACY DISCLAIMER

The colours displayed in the Catalogue are as close as possible to the true product colour. However, colour representation can significantly differ when using RGB and HEX values to display colours on any material. We highly recommend sampling your colour selection to ensure you can achieve satisfactory results.

KNOW ABOUT **OUR PRODUCTS**

DO YOU OFFER COLOUR-MATCHING?

We have a current colour range that expands to over 1,950 colours, but we also colour-match many high-end paint manufacturers' colours with our advanced colour lab capabilities.

CAN YOU PUT DECORATIVE FINISHES IN BATHROOMS?

We have five products that are specially designed for bathroom usage. Our range is vast for suitability in style and project. Our cementitious range of Microcements includes Marmorino Floor and Microcement. For a 100% waterproof synthetic product we offer Microsynth Marble. For commercial environments that require a heavy-duty product, we recommend our Forcrete range comprised of Trowel-X and Micro-Quartz.

ARE THERE DIFFERENT STYLES AND FINISHES AVAILABLE?

Each product illustrates its own unique aesthetic. Therefore, different products achieve different styles and finishes.

ARE THERE ANY HEALTH BENEFITS TO YOUR PRODUCTS?

Our lime-based decorative products have natural breathability, making it an inhospitable surface for bacteria, dust, mould and mildew without the need for chemical additives. In addition, they are extremely low in or completely absent of VOCs (volatile organic compounds).

CAN YOUR PRODUCTS BE USED ON SPLASH BACKS AND BENCH TOPS?

We have a number of selected products that can be applied to splash backs and bench tops such as Marmorino Floor, Microsynth Marble, Microcement, Trowel-X and Micro-Quartz. These products are food grade, provided the appropriate sealer is used.

WHO CAN APPLY YOUR PRODUCTS?

We highly recommend you utilise a Calce Company certified applicator, that has been trained in Calce Company products. This will ensure that the finish and quality of the samples will be achieved to the same finish that has been approved. In addition, using a certified applicator provides extra reassurance in product warranty.
