

The product can be pigmented.

TECHNICAL **CHART 87**

LAMINA FOIL

Description of product

Laminated foil designed to give a metallescent effect to materic products.

Application field

Materic products such as "Liberty Fine 400", "Liberty Classico 800", "Calce Barocco", "Decora 3D" and many others.

Product characteristics

LAMINA FOIL is applied to surfaces treated with "Lamina Adhesive", giving products such as "Liberty Fine 400", "Liberty Classico 800", "Calce Barocco", "Decora 3D" and many others a laminated effect.

After the peeling of LAMINA FOIL apply "Lamina Varnish", in order to protect and make the affected surface resistant.
